

QUALITY AND FOOD SAFETY POLICY

COMMITTED TO QUALITY AND SUSTAINABILITY

ALCOHOLES Y VINOS, S.A gets as one of its fundamental principles and its commitment, as well as its responsibility, the sustainable production as well as the protection of the environment within a framework of sustainability work. Therefore, we are certified in ISO 9001: 2015, IFS and BRC.

This objective can only be achieved if the development of all its activities is closely attached to the basic pillars of sustainability. ALCOHOLES Y VINOS, S.A. defines the following sustainability actions in its mission, vision and values, which cover and direct all its actions and strategies.

For this reason, we only place on the market safe and legal products according to the specified quality, establishing capable processes and complying with a program of continuous improvement of the efficiency of the Management System and under a framework of environmental responsibility.

Quality Management is an objective, and responsibility of all the personnel integrated into ALCOHOLES Y VINOS, S.A., and it includes all the activities related to it. Convinced that the Quality Management System will help us achieve a system of continuous improvement, annually we will establish and review concrete and quantifiable objectives that will help us measure and evaluate the improvement achieved.

The Policy on food safety and its periodic reviews will be made known to all the personnel of ALCOHOLES Y VINOS, S.A. through internal communications of the same, assuring its total understanding and its consequent application.
